End-to-end SAP test automation solution for a leading ICT service provider

The customer, one of the largest ICT service providers needed to enhance their SAP TAO functionality. With worldwide revenues of 2.2 billion euros, they needed assistance in handling their SAP portal.

Business challenge
- Inability of SAP TAO to handle SAP Portal (ESS / MSS)
- Integrated reporting in QC for an automated test run with a mix of SAP TAO and Mindtree SAP test automation framework components

Our solution
- Enhanced the customer's SAP TAO capabilities by integrating it with Mindtree's SAP test automation framework
- Integrated SolMan with QC for import / export of requirements, test cases and test results
- Enhanced QC reporting
- Worked jointly with HP support to resolve an issue that required a patch for executing custom QTP scripts seamlessly

Business impact
- Seamless automation of test processes requiring navigation from SAP portal to ECC GUI
- Integration of the automated solution with SAP SolMan and HP QC for effective test management and governance
- A single report from HP QC having details of execution at a test step level with screenshots and test / verification data
