- SAP NetWeaver enterprise portal development
- SAP BASIS administration / security
- Adobe interactive forms, Adobe Flex
- LSMW (Legacy System Migration Workbench)

## Emerging technologies

**Mobility:** Mindtree offers services ranging from mobile strategy to application development and testing. We have RDS mobile apps for field services, leasing and sales for the real estate industry and workflow application. Currently, we are engaged with SAP in the Mobile Applications Partner Program (MAPP). In this program Mindtree has partnered with SAP to build mPromo, a B2B iPad solution for trade promotion management, optimization and compliance tracking.

**SAP BI & HANA:** By combining SAP's tools with our functional and industry expertise, Mindtree delivers analytics solutions that drive competitive advantage and smarter decisions. We have implemented end-to-end large-scale EDW projects and have extensive report and ETL migration experience and set up large scale support centers. Mindtree is working with Customers on building accelerators and proof of concept scenarios on HANA to evaluate the data load and reporting performance improvements.

## ABAP factory services

Mindtree offers ABAP development and consulting from its offshore ABAP factory through ABAP/4 experts. We use quality standards to deliver high quality solutions consistently.

With an offshore factory model our customers get the following benefits:

- ABAP experts and functional experts under one roof
- Effective resource management
- Efficient and faster model to support multiple applications
- Cost effective resourcing due to factory approach
- Significantly low cost service

## Tools and frameworks

### Packaged mobile app

- Workflow app
- Field service app
- Real estate leasing and sales
- mPromo – trade promotion app
- Digital coupons app for consumers

### Tools & accelerators

- Upgrade assessment tool
- ABAP accelerators
- Test automation framework
- Estimation template
- RUBIC framework

### SAP RDS

- Solman RDS
- SAP CRM mobile sales
- SAP shopping cart on mobile
- SAP retail execution on mobile
