1. Company overview

Mindtree Limited ('Mindtree' or 'the Company') together with its subsidiaries Mindtree Software (Shanghai) Co. Ltd, Discoverture Solutions L.L.C., Discoverture Solutions Europe Limited (liquidated w.e.f. July 05, 2016), Bluefin Solutions Limited, Bluefin Solutions Inc., Bluefin Solutions Sdn Bhd, Blouvin (Pty) Limited, Bluefin Solutions Pte Ltd, Relational Solutions, Inc. and Magnet 360, LLC, Reside LLC, M360 Investments, LLC and Numerical Truth, LLC, collectively referred to as 'the Group' is an international Information Technology consulting and implementation Group that delivers business solutions through global software development. The Group is structured into four industry verticals – Retail, CPG and Manufacturing (RCM), Banking, Financial Services and Insurance (BFSI), Technology, Media and Services (TMS) and Travel and Hospitality (TH). The Group offers services in the areas of agile, analytics and information management, application development and maintenance, business process management, business technology consulting, cloud, digital business, independent testing, infrastructure management services, mobility, product engineering and SAP services.

The Company is a public limited company incorporated and domiciled in India and has its registered office at Bengaluru, Karnataka, India and has offices in India, United States of America, United Kingdom, Japan, Singapore, Malaysia, Australia, Germany, Switzerland, Sweden, South Africa, UAE, Netherlands, Canada, Belgium, France, Ireland and Republic of China. The Company has its primary listings on the Bombay Stock Exchange and National Stock Exchange in India. The consolidated financial statements were authorized for issuance by the Company's Board of Directors on January 19, 2017.

2. Significant accounting policies

2.1 Basis of preparation and presentation

(a) Statement of compliance

These consolidated financial statements have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016, as applicable. For all the periods upto and including the quarter and year ended March 31, 2016, the Group had earlier prepared and presented its financial statements in accordance with accounting standards notified under section 133 of the Companies Act 2013 (Indian GAAP). Reconciliations and description of the effect of the transition to Ind AS from Indian GAAP is given in Note 41.

(b) Basis of measurement

The consolidated financial statements have been prepared on a historical cost convention and on an accrual basis, except for the following material items that have been measured at fair value as required by relevant Ind AS:

- i. Derivative financial instruments;
- ii. Certain financial assets and liabilities measured at fair value (refer accounting policy on financial instruments);
- iii. Share based payment transactions and
- iv. Defined benefit and other long-term employee benefits

(c) Use of estimates and judgement

The preparation of consolidated financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements is included in the following notes:

i) *Revenue recognition:* The Group uses the percentage of completion method using the input (cost expended) method to measure progress towards completion in respect of fixed price contracts. Percentage of completion method accounting relies on estimates of total expected contract revenue and costs. This method is followed when reasonably dependable estimates of the revenues and costs applicable to various elements of the contract can be made. Key factors that are reviewed in estimating the future costs to complete include estimates of future labor costs and productivity efficiencies. As the financial reporting of these contracts depends on estimates that are assessed continually during the term of these contracts, recognized revenue and profit are subject to revisions as the contract progresses to completion. When estimates indicate that a loss will be incurred, the loss is provided for in the period in which the loss becomes probable.

ii) *Income taxes:* The Group's two major tax jurisdictions are India and the U.S., though the Group's also files tax returns in other foreign jurisdictions. Significant judgments are involved in determining the provision for income taxes, including the amount expected to be paid or recovered in connection with uncertain tax positions. Also refer to Note 16.

iii) *Other estimates:* The preparation of financial statements involves estimates and assumptions that affect the reported amount of assets, liabilities, disclosure of contingent liabilities at the date of financial statements and the reported amount of revenues and expenses for the reporting period. Specifically, the Group estimates the probability of collection of accounts receivable by analyzing historical payment patterns, customer concentrations, customer credit-worthiness and current economic trends If the financial condition of a customer deteriorates, additional allowances may be required.

The stock compensation expense is determined based on the Group's estimate of equity instruments that will eventually vest.

Subsidiaries

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries).

Control exists when the parent has power over an investee, exposure or rights to variable returns from its involvement with the investee and ability to use its power to affect those returns. Power is demonstrated through existing rights that give the ability to direct relevant activities, those which significantly affect the entity's returns. Subsidiaries are consolidated from the date control commences until the date control ceases.

The financial statement of subsidiaries are consolidated on a line-by-line basis and intra-group balances and transactions including un-realized gain/ loss from such transactions are eliminated upon consolidation. The financial statements are prepared by applying uniform policies in use at the Group.

2.3 Summary of significant accounting policies

(i) Functional and presentation currency

Items included in the consolidated financial statements of each of the Group's subsidiaries are measured using the currency of the primary economic environment in which these entities operate (i.e. the "functional currency"). The consolidated financial statements are presented in Indian Rupee, the national currency of India, which is the functional currency of the Company.

(ii) Foreign currency transactions and balances

Transactions in foreign currency are translated into the respective functional currencies using the exchange rates prevailing at the dates of the respective transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at the exchange rates prevailing at reporting date of monetary assets and liabilities denominated in foreign currencies are recognized in the consolidated statement of profit and loss and reported within foreign exchange gains/ (losses).

Non-monetary assets and liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

(iii) Financial instruments

All financial instruments are recognised initially at fair value. Transaction costs that are attributable to the acquisition of the financial asset (other than financial assets recorded at fair value through profit or loss) are included in the fair value of the financial assets. Purchase or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trade) are recognised on trade date. Loans and borrowings and payable are recognised net of directly attributable transactions costs.

For the purpose of subsequent measurement, financial instruments of the group are classified in the following categories: non-derivative financial assets comprising amortised cost, debt instruments at fair value through other comprehensive income (FVTOCI), equity instruments at FVTOCI or fair value through profit and loss account (FVTPL), non derivative financial liabilities at amortised cost or FVTPL and derivative financial instruments (under the category of financial assets or financial liabilities) at FVTPL.

The classification of financial instruments depends on the objective of the business model for which it is held. Management determines the classification of its financial instruments at initial recognition.

a) Non-derivative financial assets

(i) Financial assets at amortised cost

A financial asset shall be measured at amortised cost if both of the following conditions are met:

(a) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and

(b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

They are presented as current assets, except for those maturing later than 12 months after the reporting date which are presented as non-current assets. Financial assets are measured initially at fair value plus transaction costs and subsequently carried at amortized cost using the effective interest method, less any impairment loss.

Financial assets at amortised cost are represented by trade receivables, security deposits, cash and cash equivalents, employee and other advances and eligible current and non-current assets.

Cash and cash equivalents comprise cash on hand and in banks and demand deposits with banks which can be withdrawn at any time without prior notice or penalty on the principal.

For the purposes of the cash flow statement, cash and cash equivalents include cash on hand, in banks and demand deposits with banks, net of outstanding book overdrafts that are repayable on demand, and are considered part of the Group's cash management system.

(ii) Debt instruments at FVTOCI

A debt instrument shall be measured at fair value through other comprehensive income if both of the following conditions are met:

(a) the objective of the business model is achieved by both collecting contractual cash flows and selling financial assets and

(b) the asset's contractual cash flow represent SPPI

Debt instruments included within FVTOCI category are measured initially as well as at each reporting period at fair value plus transaction costs. Fair value movements are recognised in other comprehensive income (OCI). However, the group recognises interest income, impairment losses & reversals and foreign exchange gain loss in consolidated statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from equity to profit and loss. Interest earned is recognised under the effective interest rate (EIR) model.

(iii) Equity instruments at FVTOCI

All equity instruments are measured at fair value. Equity instruments held for trading is classified as FVTPL. For all other equity instruments, the group may make an irrevocable election to present subsequent changes in the fair value in OCI. The group makes such election on an instrument-by-instrument basis.

If the group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividend are recognised in OCI. There is no recycling of the amount from OCI to statement of profit and loss, even on sale of the instrument. However the group may transfer the cumulative gain or loss within the equity.

(iv) Financial assets at FVTPL

FVTPL is a residual category for financial assets. Any financial asset which does not meet the criteria for categorization as at amortised cost or as FVTOCI, is classified as FVTPL.

In addition, the Group may elect to designate the financial asset, which otherwise meets amortised cost or FVTOCI criteria, as FVTPL if doing so eliminates or significantly reduces a measurement or recognition inconsistency. The Group has not designated any financial asset as FVTPL.

Financial assets included within the FVTPL category are measured at fair values with all changes in the statement of profit and loss.

b) Non-derivative financial liabilities

(i) Financial liabilities at amortised cost

Financial liabilities at amortised cost represented by trade and other payables are initially recognized at fair value, and subsequently carried at amortized cost using the effective interest method.

(ii) Financial liabilities at FVTPL

Financial liabilities at FVTPL represented by contingent consideration are measured at fair value with all changes recognised in the consolidated statement of profit or loss

c) Derivative financial instruments

The Group holds derivative financial instruments such as foreign exchange forward contracts to mitigate the risk of changes in foreign exchange rates on foreign currency assets or liabilities and forecasted cash flows denominated in foreign currencies. The counterparty for these contracts is generally a bank.

Derivatives are recognized and measured at fair value. Attributable transaction costs are recognized in statement of profit and loss.

(i) Cash flow hedges: Changes in the fair value of the derivative hedging instrument designated as a cash flow hedge are recognized in other comprehensive income and presented within equity in the cash flow hedging reserve to the extent that the hedge is effective. To the extent that the hedge is ineffective, changes in fair value are recognized in the consolidated statement of profit and loss. If the hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated or exercised, then hedge accounting is discontinued prospectively. The cumulative gain or loss previously recognized in the cash flow hedging reserve is transferred to the consolidated statement of profit and loss upon the occurrence of the related forecasted transaction.

(ii) Others: Changes in fair value of foreign currency derivative instruments not designated as cash flow hedges and the ineffective portion of cash flow hedges are recognized in the consolidated statement of profit and loss and reported within foreign exchange gains/(losses)

(iv) Property, plant and equipment

a) *Recognition and measurement:* Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any. Cost includes expenditures directly attributable to the acquisition of the asset.

b) Depreciation: The Group depreciates property, plant and equipment over the estimated useful life on a straight-line basis from the date the assets are ready for intended use. Assets acquired under finance lease and leasehold improvements are amortized over the lower of estimated useful life and lease term. The estimated useful lives of assets for the current and comparative period of significant items of property, plant and equipment are as follows:

| Category | Useful life |
|--------------------------|---------------|
| Buildings | 5 to 30 years |
| Leasehold improvements | 5 years |
| Computers | 2 to 3 years |
| Plant and machinery | 3 to 4 years |
| Furniture and fixtures | 3 to 7 years |
| Electrical installations | 3 years |
| Office equipment | 3 to 5 years |
| Vehicles | 4 years |

Depreciation methods, useful lives and residual values are reviewed at each reporting date.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these wil flow to the Group and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the consolidated statement of profit and loss when incurred. The cost and related accumulated depreciation are eliminated from the consolidated financial statements upon sale or disposition of the asset and the resultant gains or losses are recognized in the consolidated statement of profit and loss.

Amounts paid towards the acquisition of property, plant and equipment outstanding as of each reporting date and the cost of property, plant and equipment not ready for intended use before such date are disclosed under capital work- in-progress.

(v) Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective estimated useful lives on a straightline basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

The estimated useful lives of intangibles are as follows:

| Category | Useful life |
|---------------------------------|---------------|
| Intellectual property | 5 years |
| Computer software | 2 to 3 years |
| Business alliance relationships | 4 years |
| Customer relationships | 3 to 5 years |
| Vendor relationship | 5 to 10 years |
| Trade name | 10 years |
| Technology | 10 years |
| Non-compete agreement | 5 years |

(vi) Business combination, Goodwill and Intangible assets

Business combinations are accounted for using the purchase (acquisition) method. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition.

Transaction costs incurred in connection with a business combination are expensed as incurred.

a) Goodwill

The excess of the cost of acquisition over the Group's share in the fair value of the acquiree's identifiable assets, liabilities and contingent liabilities is recognized as goodwill. If the excess is negative, a bargain purchase gain is recognized in capital reserve.

b) Intangible assets

Ind AS 103 requires the identifiable intangible assets and contingent consideration to be fair valued in order to ascertain the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. Significant estimates are required to be made in determining the value of contingent consideration and intangible assets. These valuations are conducted by independent valuation experts.

Significant accounting policies and notes to the accounts

For the quarter and nine months ended December 31, 2016

(Rupees in millions, except share and per share data, unless otherwise stated)

(vii) Leases

Leases under which the Group assumes substantially all the risks and rewards of ownership are classified as finance leases. When acquired, such assets are capitalized at fair value or present value of the minimum lease payments at the inception of the lease, whichever is lower. Lease payments under operating leases are recognised as an expense on a straight line basis in the consolidated statement of profit and loss over the lease term except where the lease payments are structured to increase in line with expected general inflation.

(viii) Impairment

a) Financial assets

In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss. The group follows 'simplified approach' for recognition of impairment loss allowance on trade receivable.

The application of simplified approach does not require the group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If in subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12 month ECL.

Lifetime ECLs are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12 month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the group in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider :

(i) All contractual terms of the financial instrument (including prepayment, extension etc.) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument;

(ii) Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

As a practical expedient, the Group uses a provision matrix to determine impairment loss on portfolio of its trade receivable. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward- looking estimates. At every reporting date, the historical observed default rates are updated and changes in forward-looking estimates are analysed.

ECL impairment loss allowance (or reversal) recognised during the period is recognised as income/expense in the statement of profit and loss. This amount is reflected under the head other expenses in the statement of profit and loss. The balance sheet presentation for various financial instruments is described below:

Financial assets measured at amortised cost, contractual revenue receivable: ECL is presented as an allowance, i.e. as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write off criteria, the group does not reduce impairment allowance from the gross carrying amount.

b) Non-financial assets

The Group assesses at each reporting date whether there is any objective evidence that a non financial asset or a group of non financial assets is impaired. If any such indication exists, the Group estimates the amount of impairment loss.

An impairment loss is calculated as the difference between an asset's carrying amount and the recoverable amount. Losses are recognised in the consolidated statement of profit and loss and reflected in an allowance account. When the Group considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through consolidated statement of profit and loss.

Significant accounting policies and notes to the accounts

For the quarter and nine months ended December 31, 2016

(Rupees in millions, except share and per share data, unless otherwise stated)

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

The goodwill acquired in a business combination is, for the purpose of impairment testing, allocated to cash-generating units that are expected to benefit from the synergies of the combination.

Goodwill is tested for impairment on an annual basis and whenever there is an indication that goodwill may be impaired, relying on a number of factors including operating results, business plans and future cash flows. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the Group's cash generating units(CGU) or groups of CGU's expected to benefit from the synergies arising from the business combination. A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or group of assets. Impairment occurs when the carrying amount of a CGU including the goodwill, exceeds the estimated recoverable amount of the CGU. The recoverable amount of a CGU is the higher of its fair value less cost to sell and its value-in-use. Value-in-use is the present value of future cash flows expected to be derived from the CGU.

Total impairment loss of a CGU is allocated first to reduce the carrying amount of goodwill allocated to the CGU and then to the other assets of the CGU prorata on the basis of the carrying amount of each asset in the CGU. An impairment loss on goodwill is recognised in consolidated statement of profit and loss and is not reversed in the subsequent period.

(ix) Employee Benefit

The Group participates in various employee benefit plans. Post-employment benefits are classified as either defined contribution plans or defined benefit plans. Under a defined contribution plan, the Group's only obligation is to pay a fixed amount with no obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits. The related actuarial and investment risks fall on the employee. The expenditure for defined contribution plans is recognized as expense during the period when the employee provides service. Under a defined benefit plan, it is the Group's obligation to provide agreed benefits to the employees. The related actuarial and investment risks fall on the defined benefit obligations is calculated using the projected unit credit method.

The Group has the following employee benefit plans:

a) Social security plans

Employees contributions payable to the social security plans, which are a defined contribution scheme, is charged to the consolidated statement of profit and loss in the period in which the employee renders services.

b) Gratuity

In accordance with the Payment of Gratuity Act, 1972, the Group provides for a lump sum payment to eligible employees, at retirement or termination of employment based on the last drawn salary and years of employment with the Company. The gratuity fund is managed by the Life Insurance Corporation of India (LIC), ICICI Prudential Life Insurance Company and SBI Life Insurance Company. The Group's obligation in respect of the gratuity plan, which is a defined benefit plan, is provided for based on actuarial valuation using the projected unit credit method.

Actuarial gains or losses are recognized in other comprehensive income. Further, the profit or loss does not include an expected return on plan assets. Instead net interest recognized in profit or loss is calculated by applying the discount rate used to measure the defined benefit obligation to the net defined benefit liability or asset. The actual return on the plan assets above or below the discount rate is recognized as part of re-measurement of net defined liability or asset through other comprehensive income.

Remeasurements comprising of actuarial gains or losses and return on plan assets (excluding amounts included in net interest on the net defined benefit liability) are not reclassified to profit or loss in subsequent periods.

c) Compensated absences

The employees of the Group are entitled to compensated absences. The employees can carry forward a portion of the unutilised accumulating compensated absences and utilise it in future periods or receive cash at retirement or termination of employment. The Group records an obligation for compensated absences in the period in which the employee renders the services that increases this entitlement. The Group measures the expected cost of compensated absences as the additional amount that the Group expects to pay as a result of the unused entitlement that has accumulated at the end of the reporting period. The Group recognizes accumulated compensated absences based on actuarial valuation. Non-accumulating compensated absences are recognized in the period in which the absences occur. The Group recognizes actuarial gains and losses immediately in the statement of profit and loss.

(x) Share based payments

Employees of the Group receive remuneration in the form of equity settled instruments, for rendering services over a defined vesting period. Equity instruments granted are measured by reference to the fair value of the instrument at the date of grant.

The expense is recognized in the consolidated statement of profit and loss with a corresponding increase to the share based payment reserve, a component of equity.

The equity instruments generally vest in a graded manner over the vesting period. The fair value determined at the grant date is expensed over the vesting period of the respective tranches of such grants (accelerated amortization). The stock compensation expense is determined based on the Group's estimate of equity instruments that will eventually vest.

The fair value of the amount payable to the employees in respect of phantom stocks, which are settled in cash, is recognized as an expense with a corresponding increase in liabilities, over the period during which the employees become unconditionally entitled to payment. The liability is remeasured at each reporting date and at settlement date based on the fair value of the phantom stock options plan. Any changes in the liability are recognized in consolidated statement of profit and loss.

(xi) Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset, if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Group from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. Provisions for onerous contracts are measured at the present value of lower of the expected net cost of fulfilling the contract and the expected cost of terminating the contract.

(xii) Revenue

The Group derives revenue primarily from software development and related services. The Group recognizes revenue when the significant terms of the arrangement are enforceable, services have been delivered and the collectability is reasonably assured. The method for recognizing revenues and costs depends on the nature of the services rendered:

a) Time and materials contracts

Revenues and costs relating to time and materials contracts are recognized as the related services are rendered.

b) Fixed-price contracts

Revenues from fixed-price contracts are recognized using the "percentage-of-completion" method. Percentage of completion is determined based on project costs incurred to date as a percentage of total estimated project costs required to complete the project. The cost expended (or input) method has been used to measure progress towards completion as there is a direct relationship between input and productivity.

If the Group does not have a sufficient basis to measure the progress of completion or to estimate the total contract revenues and costs, revenue is recognized only to the extent of contract cost incurred for which recoverability is probable.

When total cost estimates exceed revenues in an arrangement, the estimated losses are recognized in the consolidated statement of profit and loss in the period in which such losses become probable based on the current contract estimates.

'Unbilled revenues' represent cost and earnings in excess of billings as at the end of the reporting period.

'Unearned revenues' represent billing in excess of revenue recognized. Advance payments received from customers for which no services are rendered are presented as 'Advance from customers'.

c) Maintenance contracts

Revenue from maintenance contracts is recognized ratably over the period of the contract using the "percentage-of-completion" method. When services are performed through an indefinite number of repetitive acts over a specified period of time, revenue is recognized on a straight line basis over the specified period or under some other method that better represents the stage of completion.

In arrangements for software development and related services and maintenance services, the Group has applied the guidance in Ind AS 18, Revenue, by applying the revenue recognition criteria for each separately identifiable component of a single transaction. The arrangements generally meet the criteria for considering software development and related services as separately identifiable components. For allocating the consideration, the Group has measured the revenue in respect of each separable component of a transaction at its fair value, in accordance with principles given in Ind AS 18.

The Group accounts for volume discounts and pricing incentives to customers by reducing the amount of revenue recognized at the time of sale.

Revenues are shown net of sales tax, value added tax, service tax and applicable discounts and allowances.

The Group accrues the estimated cost of post contract support services at the time when the revenue is recognized. The accruals are based on the Group's historical experience of material usage and service delivery costs.

(xiii) Warranty provisions

The Group provides warranty provisions on all its products sold. A liability is recognised at the time the product is sold. The Group does not provide extended warranties or maintenance contracts to its customers.

(xiv) Finance income and expense

Finance income consists of interest income on funds invested, dividend income and gains on the disposal of FVTPL financial assets. Interest income is recognized as it accrues in the consolidated statement of profit and loss, using the effective interest method.

Dividend income is recognized in the consolidated statement of profit and loss on the date that the Group's right to receive payment is established.

Finance expenses consist of interest expense on loans and borrowings. Borrowing costs are recognized in the consolidated statement of profit and loss using the effective interest method.

Foreign currency gains and losses are reported on a net basis. This includes changes in the fair value of foreign exchange derivative instruments, which are accounted at fair value through profit or loss.

(xv) Income tax

Income tax comprises current and deferred tax. Income tax expense is recognized in the consolidated statement of profit and loss except to the extent it relates to items directly recognized in equity or in other comprehensive income.

a) Current income tax

Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for the period. The tax rates and tax laws used to compute the current tax amount are those that are enacted or substantively enacted by the reporting date and applicable for the period. The Group offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis or to realize the asset and liability simultaneously.

b) Deferred income tax

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in financial statements, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss at the time of the transaction.

Deferred income tax asset are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

Deferred income tax liabilities are recognized for all taxable temporary differences.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

(xvi) Earnings per share

Basic earnings per share is computed using the weighted average number of equity shares outstanding during the period.

Diluted EPS is computed by dividing the net profit after tax by the weighted average number of equity shares considered for deriving basic EPS and also weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for bonus shares, as appropriate.

(xvii) Government grants

Grants from the government are recognised when there is reasonable assurance that:

(i) the Group will comply with the conditions attached to them; and

(ii) the grant will be received.

Government grants related to revenue are recognised on a systematic basis in the consolidated statement of profit and loss over the periods necessary to match them with the related costs which they are intended to compensate. Such grants are deducted in reporting the related expense. When the grant relates to an asset, it is recognized as income over the expected useful life of the asset.

Where the Group receives non-monetary grants, the asset is accounted for on the basis of its acquisition cost. In case a non-monetary asset is given free of cost it is recognised at a fair value. When loan or similar assistance are provided by government or related institutions, with an interest rate below the current applicable market rate, the effect of this favourable interest is recognized as government rate. The loan or assistance is initially recognized and measured at fair value and the government grant is measured as the difference between the initial carrying value of the loan and the proceeds received.

New standards and interpretations not yet adopted

Ind AS 115 Revenue from Contracts with Customers: Ind AS 115, Revenue from Contracts with Customers was initially notified under the Companies (Indian Accounting Standards) Rules, 2015.

The standard applies to contracts with customers. The core principle of the new standard is that an entity should recognize revenue to depict transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further, the new standard requires enhanced disclosures about the nature, timing and uncertainty of revenues and cash flows arising from the entity's contracts with customers. The new standard offers a range of transition options. An entity can choose to apply the new standard to its historical transactions - and retrospectively adjust each comparative period. Alternatively, an entity can recognize the cumulative effect of applying the new standard at the date of initial application - and make no adjustments to its comparative information. The chosen transition option can have a significant effect on revenue trends in the financial statements. A change in the timing of revenue recognition may require a corresponding change in the timing of recognition of related costs.

The standard has been currently deferred. The Group is currently evaluating the requirements of Ind AS 115, and has not yet determined the impact on the consolidated interim financial statements

The Group uses a provision matrix to determine impairment loss on portfolio of its trade receivable. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in forward-looking estimates are analysed. The Group estimates the following matrix at the reporting date.

| | | Ageing | | | |
|--------------|-----------|-------------|--------------|---------------|--|
| | 1-90 days | 91-180 days | 181-360 days | More than 360 | |
| Default rate | 0.2% | 3% | 25% | 40% | |
| | | | | | |

*In case of probability of non-collection, default rate is 100%

c) The Group has only one class of shares referred to as equity shares having a par value of Rs 10 each.

Each holder of the equity share, as reflected in the records of the Group as of the date of the shareholder meeting, is entitled to one vote in respect of each share held for all matters submitted to vote in the shareholder meeting.

The Group declares and pays dividends in Indian rupees and foreign currency. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the Annual General Meeting.

In the event of liquidation of the Group, the holders of equity shares will be entitled to receive any of the remaining assets of the Group after distribution of all preferential amounts. However, no such preferential amounts exist currently. The distribution will be in proportion to the number of equity shares held by the shareholders.

d) Equity shareholder holding more than 5 percent of equity shares along with the number of equity shares held at the beginning and at the end of the period are as given below:

*Pre bonus issue

e) In the period of five years immediately preceding December 31, 2016:

i) The Group has allotted 83,893,088 and 41,765,661 fully paid up equity shares during the quarter ended March 31, 2016 and June 30, 2014 respectively, pursuant to 1:1 bonus share issue approved by shareholders. Consequently, options/ units granted under the various employee share based plans are adjusted for bonus share issue. ii) The Group has not bought back any equity shares.

iii) The Group has not allotted any equity shares as fully paid up without payment being received in cash.

Significant accounting policies and notes to the accounts

For the quarter and nine months ended December 31, 2016

(Rupees in millions, except share and per share data, unless otherwise stated)

f) Employee stock based compensation

The Group instituted the Employees Stock Option Plan ('ESOP') in fiscal 2000, which was approved by the Board of Directors ('the Board'). The Group currently administers seven stock option programs, a restricted stock purchase plan and a phantom stock options plan.

Program 1 [ESOP 1999]

This plan was terminated on September 30, 2001 and there are no options outstanding as at December 31, 2016, March 31, 2016 and April 1, 2015.

Program 2 [ESOP 2001]

Options under this program have been granted to employees at an exercise price of Rs 50 per option (Rs. 12.5 per option post bonus issue). All stock options have a four-year vesting term and vest and become fully exercisable at the rate of 15%, 20%, 30% and 35% at the end of 1, 2, 3 and 4 years respectively from the date of grant. Each option is entitled to 1 equity share of Rs 10 each. This program extends to employees who have joined on or after October 1, 2001 or have been issued employment offer letters on or after August 8, 2001 or options granted to existing employees with grant date on or after October 1, 2001. This plan was terminated on April 30, 2006. The contractual life of each option is 11 years after the date of grant.

| | Quarter ended December 31, | | | | |

Program 7 [ESOP 2010A]

In-principle approvals for administering the seventh stock option program i.e. ESOP 2010 (A) have been received by the Group from the BSE and NSE for 1,135,000 equity shares of Rs 10 each. No options have been granted under the program as at December 31, 2016, March 31, 2016 and April 1, 2015.

Employee Restricted Stock Purchase Plan 2012 ('ERSP 2012')

ERSP 2012 was instituted with effect from July 16, 2012 to issue equity shares of nominal value of Rs 10 each. Shares under this program are granted to employees at an exercise price of not less than Rs 10 per equity share or such higher price as determined by the Nomination and Remuneration Committee. Shares shall vest over such term as determined by the Nomination and Remuneration and Remuneration Committee not exceeding ten years from the date of the grant. All shares will have a minimum lock in period of one year from the date of allotment.

| Unused tax losses of foreign jurisdiction | 156 | 152 | 158 | | |

The Group has units at Bengaluru, Hyderabad, Chennai and Bhubaneshwar registered as Special Economic Zone (SEZ) units which are entitled to a tax holiday under Section 10AA of the Income Tax Act, 1961.

The Group also has STPI units at Bengaluru and Pune which are registered as a 100 percent Export Oriented Unit, which were earlier entitled to a tax holiday under Section 10B and Section 10A of the Income Tax Act, 1961.

A substantial portion of the profits of the Group's India operations are exempt from Indian income taxes being profits attributable to export operations from undertakings situated in Special Economic Zone (SEZ). Under the Special Economic Zone Act, 2005 scheme, units in designated special economic zones providing service on or after April 1, 2005 will be eligible for a deduction of 100 percent of profits or gains derived from the export of services for the first five years from commencement of provision of services and 50 percent of such profits and gains for a further five years. Certain tax benefits are also available for a further five years subject to the unit meeting defined conditions.

Dividend income from certain category of investments is exempt from tax. The difference between the reported income tax expense and income tax computed at statutory tax rate is primarily attributable to income exempt from tax.

Pursuant to the changes in the Indian income tax laws in fiscal 2007, Minimum Alternate Tax (MAT) has been extended to income in respect of which deduction is claimed under the tax holiday schemes discussed above; consequently, the Company has calculated its tax liability for current domestic taxes after considering MAT. The excess tax paid under MAT provisions over and above normal tax liability can be carried forward and set-off against future tax liabilities computed under normal tax provisions.

The Group is also subject to tax on income attributable to its permanent establishment in certain foreign jurisdictions due to operation of its foreign branches and subsidiaries.

Significant accounting policies and notes to the accounts For the quarter and nine months ended December 31, 2016 (Rupees in millions, except share and per share data, unless otherwise stated)

17 Other income

| Particulars | For the qua | rter ended | For the nine months ended | |

| Dividend income from investments in mutual funds | 1 | 14 | 4 | 63 |
| Net gain on sale of investments in mutual funds | 22 | 5 | 57 | 15 |
| Net gain on financial assets designated at fair value through profit and loss | 56 | 14 | 184 | 85 |
| Interest income on financial asset at amortised cost | 26 | 37 | 81 | 179 |
| Foreign exchange gain/ (loss) | 32 | 95 | 92 | 361 |
| Others* | 7 | 9 | 94 | 33 |
| Total | 144 | 174 | 512 | 736 |

*Includes net gain on disposal of property, plant and equipment for the quarter and nine months ended December 31, 2016, Rs 3 and Rs 8 respectively. (For the quarter and nine months ended December 31, 2015, Rs 5 and Rs 16 respectively). Also includes income from government grants for the quarter and nine months ended December 31, 2016 Rs 5 and Rs 8 respectively. (For the quarter and nine months ended December 31, 2015 Rs 3 and Rs 8 respectively).

18 Employee benefits expense

| Particulars | For the qua | rter ended | For the nine months ended | | |
|---|--------------|--------------|---------------------------|--------------|--|
| | December 31, | December 31, | December 31, | December 31, | |
| | 2016 | 2015 | 2016 | 2015 | |
| Salaries and wages | 7,994 | 6,706 | 23,790 | 18,430 | |
| Contribution to provident and other funds* | 464 | 434 | 1,405 | 1,150 | |
| Expense on employee stock based compensation (Refer note 9) | 18 | 41 | 55 | 83 | |
| Staff welfare expenses | 57 | 65 | 175 | 138 | |
| Total | 8,533 | 7,246 | 25,425 | 19,801 | |

*includes contribution to defined contribution plans for the quarter and nine months ended December 31, 2016, Rs 439 and Rs 1,329 respectively (For the quarter and nine months ended December 31, 2015; Rs 410 and Rs 1,082 respectively).

19 Gratuity

Amount recognized in the statement of profit and loss in respect of gratuity cost (defined benefit plan) is as follows:

| Particulars | For the qua | rter ended | For the nine months ended | |
|--|--------------|--------------|---------------------------|--------------|
| | December 31, | December 31, | December 31, | December 31, |
| | 2016 | 2015 | 2016 | 2015 |
| Gratuity cost | | | | |
| Service cost | 24 | 24 | 73 | 68 |
| Net interest on net defined liability/(asset) | 1 | - | 3 | - |
| Re-measurement - actuarial (gain)/loss recognised in OCI | (5) | 2 | 14 | 27 |
| Net gratuity cost | 20 | 26 | 90 | 95 |
| Assumptions | | | | |
| Interest rate | 6.70% | 7.90% | 6.70% | 7.90% |
| Salary increase | 4.00% | 5.00% | 4.00% | 5.00% |

The estimates of future salary increases, considered in actuarial valuation, takes into account inflation, seniority, promotion and other relevant factors such as supply and demand factors in the employment market. The expected return on plan assets is based on expectation of the average long term rate of return expected on investments of the fund during the estimated term of the obligations.

The following table sets out the status of the gratuity plan.

| Particulars | | As at | |
|---|-------------------|----------------|---------------|
| | December 31, 2016 | March 31, 2016 | April 1, 2015 |
| Change in projected benefit obligations | | | |
| Obligations at the beginning of the period | 513 | 413 | 365 |
| Service cost | 73 | 91 | 81 |
| Interest cost | 27 | 29 | 29 |
| Benefits settled | (58) | (50) | (55) |
| Actuarial (gain)/loss - experience | 12 | 30 | (7) |
| Actuarial (gain)/loss – demographic assumptions | 2 | - | - |
| Actuarial (gain)/loss – financial assumptions | 1 | - | - |
| Obligations at end of the period | 570 | 513 | 413 |
| Change in plan assets | | | |
| Plan assets at the beginning of the period, at fair value | 375 | 395 | 363 |
| Interest income on plan assets | 24 | 32 | 29 |
| Re-measurement - actuarial gain/(loss) | - | (6) | 5 |
| Return on plan assets greater/(lesser) than discount rate | 1 | 4 | 53 |
| Contributions | 142 | - | - |
| Benefits settled | (55) | (50) | (55) |
| Plan assets at the end of the period, at fair value | 487 | 375 | 395 |

Historical information:

| Particulars | As at December 31, As | at March 31, | As at March 31, | As at March 31, | As at March 31, |
|---|-----------------------|--------------|-----------------|-----------------|-----------------|
| | 2016 | 2016 | 2015 | 2014 | 2013 |
| Present value of defined benefit obligation | (570) | (513) | (413) | (365) | (324) |
| Fair Value of Plan | 487 | 375 | 395 | 363 | 313 |
| Asset/ (liability) recognized | (83) | (138) | (18) | (2) | (11) |

The experience adjustments, meaning difference between changes in plan assets and obligations expected on the basis of actuarial assumption and actual changes in those assets and obligations are as follows:

| Particulars | | As at | |
|---|-------------------|----------------|---------------|
| | December 31, 2016 | March 31, 2016 | April 1, 2015 |
| Experience adjustment on plan liabilities | 12 | 55 | 32 |
| Experience adjustment on plan assets | (1) | 2 | 6 |

Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

| | As at December 31, 2016 | | As at March | As at March 31, 2016 | | As at April 1, 2015 | |
|------------------------------------|-------------------------|----------|-------------|----------------------|----------|---------------------|--|
| | Increase | Decrease | Increase | Decrease | Increase | Decrease | |
| Discount rate (1% movement) | (28) | 31 | (26) | 29 | (21) | 29 | |
| Future salary growth (1% movement) | 30 | (28) | 28 | (26) | 23 | (26) | |

Maturity profile of defined benefit obligation:

| Particulars | | As at | | | | |
|---------------|-------------------|----------------|---------------|--|--|--|
| | December 31, 2016 | March 31, 2016 | April 1, 2015 | | | |
| Within 1 year | 94 | 77 | 68 | | | |
| 1-2 year | 99 | 86 | 77 | | | |
| 2-3 year | 107 | 95 | 85 | | | |
| 3-4 year | 116 | 101 | 96 | | | |
| 4-5 year | 126 | 117 | 108 | | | |
| 5-10 year | 590 | 603 | 565 | | | |

The Group expects to contribute Rs 83 to its defined benefit plans during the next fiscal year.

As at December 31, 2016, March 31, 2016 and April 1, 2015, 100% of the plan assets were invested in insurer managed funds.

The Group has established an income tax approved irrevocable trust fund to which it regularly contributes to finance liabilities of the plan. The fund's investments are managed by certain insurance companies as per the mandate provided to them by the trustees and the asset allocation is within the permissible limits prescribed in the insurance regulations.

27 Operating lease

The Group has various operating leases, mainly for office buildings including land. Lease rental expense under such non-cancellable operating lease during the quarter and nine months ended December 31, 2016 amounted to Rs 120 and Rs 358 respectively (for the quarter and nine months ended December 31, 2015 amounted to Rs 119 and Rs 340 respectively.)

| Particulars | | As at | | |
|---|-------------------|----------------|---------------|--|
| | December 31, 2016 | March 31, 2016 | April 1, 2015 | |
| Payable – Not later than one year | 349 | 372 | 414 | |
| Payable – Later than one year and not later than five years | 569 | 475 | 585 | |
| Payable – Later than five years | 341 | 258 | 286 | |

Additionally, the Group leases office facilities and residential facilities under cancellable operating leases. The rental expense under cancellable operating lease during the quarter and nine months ended December 31, 2016 amounted to Rs 125 and Rs 377 respectively (for the quarter and nine months ended December 31, 2015 amounted to Rs 96 and Rs 284 respectively.)

28 Financial instruments

The carrying value and fair value of financial instruments by categories as at December 31, 2016, March 31, 2016 and April 1, 2015 is as follows:

As at December 31, 2016

| Particulars | C | arrying value | | Fair value | | |
|---|--------------|---------------|----------|--------------|-----------|----------|
| Financial assets | December 31, | March 31, | April 1, | December 31, | March 31, | April 1, |
| | 2016 | 2016 | 2015 | 2016 | 2016 | 2015 |
| Amortised cost | | | | | | |
| Loans | 679 | 693 | 750 | 679 | 693 | 750 |
| Trade receivable | 10,010 | 9,728 | 6,963 | 10,010 | 9,728 | 6,963 |
| Cash and cash equivalents | 1,069 | 2,332 | 3,763 | 1,069 | 2,332 | 3,763 |

| Derivative liabilities | 4 | 1 | 3 | 4 | 1 | 3 |
| Liability towards acquisition of business | 1,042 | 1,430 | 458 | 1,042 | 1,430 | 458 |
| Total liabilities | 4,234 | 5,845 | 3,679 | 4,234 | 5,845 | 3,679 |

The management assessed that fair value of cash and short-term deposits, trade receivables, other current assets, trade payables, book overdrafts and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

i) Long-term fixed-rate and variable-rate receivables/borrowings are evaluated by the Group based on parameters such as interest rates, specific country risk factors, individual creditworthiness of the customer and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the expected losses of these receivables.

ii) The fair value of the quoted bonds and mutual funds are based on price quotations at reporting date. The fair value of unquoted instruments, loans from banks and other financial liabilities, as well as other non-current financial liabilities is estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities. In addition to being sensitive to a reasonably possible change in the forecast cash flows or discount rate, the fair value of the equity instruments is also sensitive to a reasonably possible change in the growth rates. The valuation requires management to use unobservable inputs in the model, of which the significant unobservable inputs are disclosed in the tables below. Management regularly assesses a range of reasonably possible alternatives for those significant unobservable inputs and determines their impact on the total fair value.

iii) Fair values of the Group's interest-bearing borrowings and loans are determined by using DCF method using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period. The own non- performance risk as at December 31, 2016 was assessed to be insignificant.

iv) The fair values of the unquoted equity shares have been estimated using a DCF model. The valuation requires management to make certain assumptions about the model inputs, including forecast cash flows, discount rate, credit risk and volatility/ the probabilities of the various estimates within the range can be reasonably assessed and are used in management's estimate of fair value for these unquoted equity investments.

v) The fair values of the remaining FVTOCI financial assets are derived from quoted market prices in active markets.

vi) The Group enters into derivative financial instruments with various counterparties, principally financial institutions with investment grade credit ratings. Interest rate swaps, foreign exchange forward contracts are valued using valuation techniques, which employs the use of market observable inputs. The most frequently applied valuation techniques include forward pricing and swap models, using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates, yield curves of the respective currencies, currency basis spreads between the respective currencies, interest rate curves etc. As at December 31, 2016 the marked-to-market value of derivative asset positions is net of a credit valuation adjustment attributable to derivative counterparty default risk. The changes in counterparty credit risk had no material effect on the hedge effectiveness assessment for derivatives designated in hedge relationships and other financial instruments recognised at fair value.

29 Fair value hierarchy

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The following table presents the fair value measurement hierarchy of financial assets and liabilities measured at fair value on recurring basis as at December 31, 2016, March 31, 2016 and April 1, 2015.

Quantitative disclosures fair value measurement hierarchy for financial assets as at December 31, 2016:

| | | | Fair | value measurement | using |

Derivative financials instuments are valued based on quoted prices for similar assets and liabilities in active markets or inputs that are directly or indirectly observable in the marketplace.

Derivative financial instruments

The Group is exposed to foreign currency fluctuations on foreign currency assets/ liabilities and forecasted cash flows denominated in foreign currency. The Group follows established risk management policies, including the use of derivatives to hedge foreign currency assets/ liabilities and foreign currency forecasted cash flows. The counter party in these derivative instruments is a bank and the Group considers the risks of non-performance by the counterparty as non-material.

The following table presents the aggregate contracted principal amounts of the Group's derivative contracts outstanding:

| Particulars | As at | | | |
|---|------------------|----------------|---------------|--|
| | December 31,2016 | March 31, 2016 | April 1, 2015 | |
| Non-designated derivative instruments (Sell): | | | | |
| in USD millions | 31 | 31 | 32 | |
| in EUR millions | 2 | 3 | 5 | |
| in GBP millions | 2 | 2 | 2 | |

The foreign exchange forward and option contracts mature anywhere between 0-1 year. The table below analyzes the derivative financial instruments into relevant maturity groupings based on the remaining period as at the reporting date:

| Particulars | | As at | |
|--|------------------|----------------|---------------|
| | December 31,2016 | March 31, 2016 | April 1, 2015 |
| Non-designated derivative instruments (Sell) | | | |

| in EUR millions | 1 | 2 | 3 |
| in GBP millions | 1 | 1 | 1 |

30 Financial risk management

The Group's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Group's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Group is foreign exchange risk. The Group uses derivative financial instruments to mitigate foreign exchange related risk exposures. All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. It is the Group's policy that no trading in derivative for speculative purposes maybe undertaken. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below:

Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investment securities. Credit risk arises from cash held with banks and financial institutions, as well as credit exposure to clients, including outstanding accounts receivable. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Group assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

Trade and other receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment.

The following table gives details in respect of percentage of revenues generated from top customer and top 5 customers:

| Particulars | For the qua | For the quarter ended For | | |
|-----------------------------|----------------------|---------------------------|----------------------|----------------------|
| | December 31, 2016 | December 31, 2015 | December 31, 2016 | December 31, 2015 |
| Revenue from top customer | 1,824 | 1,232 | 5,428 | 3,522 |
| Revenue from top 5 customer | 3,905 | 3,694 | 11,720 | 10,595 |

One customer accounted for more than 10% of the revenue for the quarter and nine months ended December 31, 2016, however none of the customers accounted for more than 10% of the receivables for the nine months ended December 31, 2016. One customer accounted for more than 10% of the revenue for the quarter and nine months ended December 31, 2015, however none of the customers accounted for more than 10% of the receivables for the nine months ended December 31, 2016.

Investments

The Group limits its exposure to credit risk by generally investing in liquid securities and only with counterparties that have a good credit rating. The Group does not expect any losses from non- performance by these counter-parties, and does not have any significant concentration of exposures to specific industry sectors.

Significant accounting policies and notes to the accounts

For the quarter and nine months ended December 31, 2016

(Rupees in millions, except share and per share data, unless otherwise stated)

Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they become due. The Group manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due. Also, the Group has unutilized credit limits with banks.

The Group's corporate treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management.

The working capital position of the Group is given below:

| Particulars | As at | As at | As at |
|---|------------------|----------------|---------------|
| | December 31,2016 | March 31, 2016 | April 1, 2015 |
| Cash and cash equivalents | 1,069 | 2,332 | 3,763 |
| Investments in mutual funds (quoted) | 4,586 | 1,916 | 4,790 |
| Investments in non-convertible bonds (quoted) | 100 | 100 | - |
| Investment in term deposit (unquoted) | 370 | 250 | 700 |
| Total | 6,125 | 4,598 | 9,253 |

The table below provides details regarding the contractual maturities of significant financial liabilities as at December 31, 2016, March 31, 2016 and April 1, 2015:

| Particulars | As at December 31, 2016 | | | |
|-----------------------------|-------------------------|-----------|-------------------|--|
| | Less than 1 year | 1-2 years | 2 years and above | |
| Borrowings | 81 | 5 | 9 | |
| Trade payables | 1,502 | - | - | |
| Other financial liabilities | 2,055 | 578 | - | |
| Derivative liabilities | 4 | - | - | |

| Particulars | As at March 31, 2016 | | | | |
|-----------------------------|----------------------|-----------|----------------------|--|--|
| | Less than 1 year | 1-2 years | 2 years and above | | |
| Borrowings | 420 | 5 | 13 | | |
| Trade payables | 1,890 | - | - | | |
| Other financial liabilities | 2,768 | 555 | 192 | | |
| Derivative liabilities | 1 | - | - | | |

| Particulars | As at April 1, 2015 | | | | |
|-----------------------------|---------------------|-----------|-------------------|--|--|
| | Less than 1 year | 1-2 years | 2 years and above | | |
| Borrowings | 5 | 5 | 18 | | |
| Trade payables | 1,418 | - | - | | |
| Other financial liabilities | 2,003 | 227 | - | | |
| Derivative liabilities | 3 | - | - | | |

Foreign currency risk

The Group's exchange risk arises from its foreign operations, foreign currency revenues and expenses, (primarily in U.S. dollars, British pound sterling and euros) and foreign currency borrowings (in U.S. dollars). A significant portion of the Group's revenues are in these foreign currencies, while a significant portion of its costs are in Indian rupees. As a result, if the value of the Indian rupee appreciates relative to these foreign currencies, the Group's revenues measured in rupees may decrease. The exchange rate between the Indian rupee and these foreign currencies has changed substantially in recent periods and may continue to fluctuate substantially in the future. The Group has a foreign currency advisory committee which meets on a periodic basis to formulate the strategy for foreign currency risk management.

Consequently, the Group uses derivative financial instruments, such as foreign exchange forward contracts, to mitigate the risk of changes in foreign currency exchange rates in respect of its forecasted cash flows and trade receivables.

The details in respect of the outstanding foreign exchange forward contracts are given under the derivative financial instruments section.

In respect of the Group's forward and option contracts, a 1% decrease/increase in the respective exchange rates of each of the currencies underlying such contracts would have resulted in:

a) an approximately Rs 33 increase and Rs 15 decrease in the Group's net profit as at December 31, 2016;

b) an approximately Rs 2 increase and Rs 2 decrease in the Group's net profit as at December 31, 2015

Significant accounting policies and notes to the accounts

For the three and nine months ended December 31, 2016, every 1% increase/decrease of the respective foreign currencies compared to functional currency of the Group would impact operating margins by 0.2% / (0.3)% and 0.2% / (0.2)% respectively. For the three and nine months ended December 31, 2015, the impact on operating margins would be 0.6% / 0.1% and (0.1)% / (0.6)% respectively.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's debt obligations with floating interest rates and investments. The Group's borrowings and investments are primarily short-term, which do not expose it to significant interest rate risk.

31 Capital management

The Group's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Group monitors the return on capital as well as the level of dividends on its equity shares. The Group's objective when managing capital is to maintain an optimal structure so as to maximize shareholder value.

The capital structure is as follows:

| Particulars | As at | As at | As at |
|--|------------------|----------------|---------------|
| | December 31,2016 | March 31, 2016 | April 1, 2015 |
| Total equity attributable to the equity share holders of the Group | 25,842 | 24,149 | 21,265 |
| As percentage of total capital | 100% | 98% | 100% |
| Current loans and borrowings | 81 | 420 | 5 |
| Non-current loans and borrowings | 14 | 18 | 23 |
| Total loans and borrowings | 95 | 438 | 28 |
| As a percentage of total capital | 0% | 2% | 0% |
| Total capital (loans and borrowings and equity) | 25,937 | 24,587 | 21,293 |

The Group is predominantly equity financed which is evident from the capital structure table. Further, the Group has always been a net cash Group with cash and bank balances along with current financial assets which is predominantly investment in liquid and short term mutual funds being far in excess of debt.

* The above compensation excludes gratuity and compensated absences which cannot be separately identified from the composite amount advised by the actuary.

33 Contingent liabilities

a) The Group has received an income tax assessment order for the financial year 2008-09 wherein demand of Rs 24 has been raised against the Group on account of certain disallowances, adjustments made by the income tax department. A significant portion of this amount arises from the manner of adjustment of brought forward losses in arriving at the taxable profits of the Group and disallowance of portion of profit earned outside India from the STP and SEZ units.

Management believes that the position taken by it on the matter is tenable and hence, no adjustment has been made to the financial statements. The Group has filed an appeal against the demands received. The Group has received a favourable order from the Commissioner of Income tax (Appeals) for majority of grounds and considering the order passed, there will not be any demand on the Group. On the other grounds which are not favourable, the Group has filed an appeal before the Income Tax Appellate Tribunal ('ITAT'). The Group has received a favourable order from ITAT. The assessment was reopened under section 148 and order has been passed under section 147 wherein demand of Rs 630 has been raised against the Group on account of certain disallowance made by the Income Tax department. The group has filed for rectification application for arithmetical error in the computation of demand, once rectified there will be no demand. The Group has also filed a writ application with Honorable High Court of Karmataka against the order.

b) The Group has received income tax assessment order for financial years 2006-07 and 2007-08 for the erstwhile subsidiary Mindtree Technologies Private Limited (MTPL) with demands amounting to Rs 11 and Rs 10 respectively on account of certain disallowances/adjustments made by income tax department. Management believes that the position taken by it on the matter is tenable and hence, no adjustment has been made to the financial statements. The Group has filed an appeal against the demand received. The Group has not deposited the amount of demand with the department. The department has adjusted pending refunds amounting to Rs 18 against these demands.

c) The Group has received income tax assessment order under Section 143(3) of the Income tax Act 1961 pertaining to erstwhile subsidiary Aztecsoft Limited for the financial years 2001-02, 2002-03, 2003-04, 2004-05, 2005-06, 2006-07, 2007-08 and 2008-09 wherein demand of Rs 215, Rs 49, Rs 61, Rs 28, Rs 58, Rs 119, Rs 214 and Rs 63 respectively has been raised against the Group. These demands have arisen mainly on account of transfer pricing adjustments made in the order. The Group has not accepted these orders and has been advised by its legal counsel/ advisors to prefer appeals before appellate authorities and accordingly the Group has filed appeals before the Commissioner of Income Tax (Appeals) and ITAT. The Group has deposited Rs 15 with the department against these demands. The department has adjusted pending refunds amounting to Rs 478 against these demands.

The Group received a favourable order from the Commissioner of Income Tax (Appeals) for the year 2001-02 where in the Commissioner of Income Tax (Appeals) accepted the Group's contentions and quashed the demand raised. The Income tax department appealed against the above mentioned order with ITAT. ITAT, in an earlier year passed an order setting aside both the orders of the Commissioner of Income Tax (Appeals) as well as the Assessing Officer and remanded the matter back to the Assessing Officer for re-assessment. The Group preferred an appeal with the Hon'ble High Court of Karnataka against the order of the ITAT. The Hon'ble High Court of Karnataka has dismissed the appeal filed against the order of ITAT and upheld the order passed by the ITAT and accordingly the case is pending before Assessing Officer for re-assessment. The Deputy Commissioner of Income tax has completed the reassessment & has issued a Final assessment order with a revised demand amounting to Rs 202 due to transfer pricing adjustments. Management believes that the position taken by it on the matter is tenable and hence, no adjustment has been made to the financial statements. The Group has filed an appeal with Commissioner of Income Tax (Appeals).

The Group has received the order from the Commissioner of Income Tax (Appeals) for the year 2004-05 and on the unfavorable grounds, the Group has a filed an appeal with ITAT, Bengaluru.

The Group has received the order from ITAT for the FY 2006-07 and ITAT has remanded the matter back to the Assessing Officer for re-assessment.

The Group has received the revised order for the FY 2008-09 under section 263 from Assessing officer raising an additional demand of Rs 61, taking the total demand to Rs 124. The Group has filed an appeal before ITAT. The order giving effect to the said order has been received and appeal is filed with Commissioner Appeals.

The Group has appealed against the demands received for financial years 2002-03, 2003-04, 2004-05, 2005-06, 2006-07, 2007-08 and 2008-09. Based on favourable order received by the Group for the financial year 2001-02 from the Commissioner of Income Tax (Appeals) and an evaluation of the facts and circumstances, no provision has been made against the above orders in the financial statements.

d) The Group received an assessment order for financial year 2006-07 for the erstwhile subsidiary Mindtree Wireless Private Limited from the Assistant Commissioner of Income-tax ('ACIT') with a demand amounting to Rs 39 on account of certain other disallowances/ transfer pricing adjustments made by income tax department. Management believes that the position taken by it on the matter is tenable and hence, no adjustment has been made to the financial statements. The Group has filed an appeal with Commissioner of Income Tax (Appeals) against the demand received.

The Group has received the order from the Commissioner of Income Tax (Appeals) wherein the Commissioner of Income Tax (Appeals) accepted the grounds in part and in respect of unfavorable grounds, the Group has filed an appeal before Income Tax Appellate Tribunal. The final order giving effect by the Assessing Officer is completed and the demand is reduced to Rs 33. The Group has deposited Rs 5 with the department against this demand.

e) The Group has received a final assessment order for financial year 2009-10 from the Deputy Commissioner of Income Tax with a demand amounting to Rs 61 due to nonadjustment of brought forward losses and transfer pricing adjustments. Management believes that the position taken by it on the matter is tenable and hence, no adjustment has been made to the financial statements. The Group has filed an appeal with Commissioner of Income Tax (Appeals).

The Group has received the revised order under section 263 for financial year 2009-10 from Assessing officer reducing the demand to Rs 6. The Group has filed an appeal before ITAT. Order giving effect has been received.

f) The Group has received a final assessment order for financial year 2012-13 from the Deputy Commissioner of Income Tax with a demand amounting to Rs 15 on account of certain disallowances. Management believes that the position taken by it on the matter is tenable and hence, no adjustment has been made to the financial statements. The Group has filed an appeal with Commissioner of Income Tax(Appeals).

34 Capital Commitments

Estimated amount of contracts remaining to be executed on capital account and not provided for as at December 31, 2016 is Rs 303 (As at March 31, 2016: Rs 262 and April 1, 2015: Rs 508).

35 Acquisition of Discoverture Solutions L.L.C. ('DS LLC')

On February 13, 2015, the Group acquired 100% of the membership interest in DS LLC, thereby obtaining control.

DS LLC is an IT services and solutions firm specializing in the property and casualty (P&C) insurance and health care customers. The acquisition of DS LLC will enable the Group to increase its foot print in (P&C) insurance industry through access to DS LLC's customer base, its expertise and brand value in the market. The Group also believes that P&C insurance industry has potential for growth.

The acquisition was executed through an equity interest agreement to acquire 100% of the membership interest in DS LLC and asset purchase and employee transition facilitation agreement of the India operations of DS LLC.

The fair value of purchase consideration of Rs 1,051 comprised upfront cash consideration of Rs 581, deferred consideration of Rs 361 and contingent consideration of Rs 109.

The details are provided below

| Sl. No. | Nature of consideration | Amount (Rs) | Fair value (Rs) | Terms |
|---------|----------------------------|-------------|--------------------|---|
| 1 | Upfront cash consideration | 581 | 581 | |
| 2 | Deferred consideration | 371 | | USD 4 million payable in February 2016 and USD 2 million in September 2016 |
| 3 | Contingent consideration | 120 | 109 | Payable in two installments for Fiscal Years 2015 and 2016 determined based on achievement of certain financial targets |
| | Total | 1,072 | 1,051 | |

The fair value of the contingent consideration, recognized on the acquisition date is determined by discounting the estimated amount payable to the previous owners on achievement of certain financial targets applying the Discounted Cash Flow approach. The fair value of estimates are based on discount rate of 23.9% and probability adjusted revenue and earnings estimates

The fair value of net assets acquired on the acquisition date as a part of the transaction amounted to Rs 311. The excess of purchase consideration over the fair value of net assets acquired has been attributed towards goodwill.

The purchase price has been allocated based on Management's estimates as follows:

| Component | Acquiree's carrying amount | Fair value adjustments | Purchase price allocated |
|--|----------------------------|------------------------|--------------------------|
| | | | |
| Property, plant and equipment | 12 | - | 12 |
| Net current assets | 162 | - | 162 |
| Deferred tax assets | - | - | - |
| Intangible assets | 2 | 206 | 208 |
| Deferred tax liabilities on intangible | - | - | - |
| Total | 176 | 206 | 382 |
| Goodwill | | | 669 |
| Total purchase price | | | 1,051 |

The intangible assets are amortised over a period of three to five years as per management's estimate of its useful life, based on the life over which economic benefits are expected to be realized.

The goodwill amounting to Rs 669 comprises value of benefits of expected synergies, future revenue, future market developments, assembled workforce, etc.

The goodwill amounting to Rs 669 is expected to be deductible for tax purposes.

Results from this acquisition are grouped under BFSI in the segmental reporting.

Significant accounting policies and notes to the accounts

For the quarter and nine months ended December 31, 2016

(Rupees in millions, except share and per share data, unless otherwise stated)

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the cash generate units (CGU) or groups of CGU's, which benefit from the synergies of the acquisition. The chief operating decision maker reviews the goodwill for any impairment at the operating segment level, which is represented through groups of CGU's.

The goodwill on acquisition of Discoverture is allocated to the operating segment 'BFSI". The recoverable amount of a CGU is the higher of its fair value less cost to sell and its value-in-use. The fair value of a CGU is determined based on the market capitalization. The value-in-use is determined based on specific calculations. These calculations use pre tax cash flow projections over a period of five years, based on financial budgets approved by management and an average of the range of each assumption mentioned below.

As of March 31, 2016, the estimated recoverable amount of the CGU exceeded its carrying amount, hence impairment is not triggered. The key assumptions used for the calculations are as follows:

| | As at |
|-----------------------|----------------|
| | March 31, 2016 |
| Long term growth rate | 14.50% |
| Operating margins | 26.30% |
| Discount rate | 21.70% |

The above discount rate is based on the Weighted Average Cost of Capital (WACC) of the Company. These estimates are likely to differ from future actual results of operations and cash flows.

36 Acquisition of Bluefin Solutions Limited ('Bluefin')

On July 16, 2015, the Group acquired 100% of equity interest in Bluefin, thereby obtaining control.

Bluefin provides SAP based business and technology consulting services. It offers SAP implementation and integration services; and business advisory services in areas of business growth strategy, operational excellence, business change management and information technology excellence. The acquisition of Bluefin will enable the Group to increase its foot print in SAP implementation and integration space.

The acquisition was executed through stock purchase agreement to acquire 100% of the equity interest in Bluefin.

The fair value of purchase consideration of Rs 3,981 comprised upfront cash consideration of Rs 3,379 and contingent consideration of Rs 602.

| Sl no | Nature of consideration | Amount (Rs) Fa | ir value (Rs) | Terms |
|-------|----------------------------|----------------|---------------|--|
| 1 | Upfront cash consideration | 3,379 | 3,379 | |
| | | | Pay | able in three installments for the financial year ending |
| | | | Mai | rch 2016, 2017 and 2018 determined based on achievemen |
| 2 | Contingent consideration | 835 | 602 of c | ertain financial targets |
| | Total | 4,214 | 3,981 | |

The fair value of the contingent consideration, recognized on the acquisition date is determined by discounting the estimated amount payable to the previous owners on achievement of certain financial targets applying the Discounted Cash Flow approach. The fair value of estimates are based on discount rate of 20.3% and probability adjusted revenue and earnings estimates

The fair value of net assets acquired on the acquisition date as a part of the transaction amounted to Rs 1,829. The excess of purchase consideration over the fair value of net assets acquired has been attributed towards goodwill.

The purchase price has been allocated based on Management's estimates as follows:

| Component | Acquiree's carrying amount | Fair value adjustments | Purchase price allocated |
|---|-------------------------------|------------------------|-----------------------------|
| Property, plant and equipment | 25 | - | 25 |
| Net current assets | 644 | - | 644 |
| Intangible assets | 7 | 1,441 | 1,448 |
| Deferred tax liabilities on intangible assets | - | (288) | (288) |
| Total | 676 | 1,153 | 1,829 |
| Goodwill | | | 2,152 |
| Total purchase price | | | 3,981 |

The transaction costs related to the acquisition amounting to Rs 21 have been included under other expenses in the consolidated statement of profit and loss for the year ended March 31, 2016.

The intangible assets are amortised over a period of five to ten years as per management's estimate of its useful life, based on the life over which economic benefits are expected to be realized.

The goodwill amounting to Rs 2,152 comprises value of benefits of expected synergies, future revenue, future market developments, assembled workforce, etc.

None of the goodwill arising on the acquisition is expected to be deductible for tax purposes.

From the date of acquisition, Bluefin has contributed revenues amounting to Rs 2,197 and profits amounting to Rs 157 to the Group's results for the period ended March 31, 2016. If the acquisition had occurred on April 1, 2015, management estimates that consolidated revenues and profits for the period would have been Rs 2,925 and Rs 179 respectively. The proforma amounts are not necessarily indicative of results that would have occurred if the acquisition had occurred on that may result in the future.

Results from this acquisition are grouped under various operating segments as defined by the Management.

37 Acquisition of Relational Solutions, Inc ('RSI')

On July 16, 2015, the Group acquired 100% of equity interest in RSI, thereby obtaining control.

RSI develops data warehouses and business intelligence solutions. The acquisition of RSI will enable the Group to increase its foot print in development of data warehouses and business intelligence solutions space.

The acquisition was executed through common stock purchase agreement to acquire 100% of equity interest in RSI.

The fair value of purchase consideration of Rs 522 comprised upfront cash consideration of Rs 454 and contingent consideration of Rs 68.

The details are provided below:

| | Nature of | Fair v | value |
|-------|----------------------------|------------------|---|
| Sl no | consideration | Amount (Rs) (Rs) | Terms |
| 1 | Upfront cash consideration | 454 | 454 |
| 2 | Contingent consideration | 95 | Payable in two installments for the fiscal year ending June 2016 68 and 2017 determined based on achievement of certain financial targets |
| | Total | 549 | 522 |

The fair value of the contingent consideration, recognized on the acquisition date is determined by discounting the estimated amount payable to the previous owners on achievement of certain financial targets applying the Discounted Cash Flow approach. The fair value of estimates are based on discount rate of 23.4% and probability adjusted revenue and earnings estimates

The fair value of net assets acquired on the acquisition date as a part of the transaction amounted to Rs 183. The excess of purchase consideration over the fair value of net assets acquired has been attributed towards goodwill.

The purchase price has been allocated based on Management's estimates as follows:

| Component | Acquiree's carrying amount | Fair value adjustments | Purchase price allocated |
|---|-------------------------------|------------------------|-----------------------------|
| Net current assets | (0.30) | | (0.30) |
| Intangible assets | | 281 | 281 |
| Deferred tax liabilities on intangible assets | - | (98) | (98) |
| Total | (0.30) | 183 | 183 |
| Goodwill | | | 339 |
| Total purchase price | | | 522 |

The transaction costs related to the acquisition amounting to Rs 11 have been included under other expenses in the consolidated statement of profit and loss for the year ended March 31, 2016.

The intangible assets are amortised over a period of five to ten years as per management's estimate of its useful life, based on the life over which economic benefits are expected to be realized.

The goodwill amounting to Rs 339 comprises value of benefits of expected synergies, future revenue, future market developments, assembled workforce, etc.

None of the goodwill arising on the acquisition is expected to be deductible for tax purposes.

From the date of acquisition, RSI has contributed revenues amounting to Rs 115 and profits amounting to Rs 9 to the Group's results for the period ended March 31, 2016. If the acquisition had occurred on April 1, 2015, management estimates that consolidated revenues and loss for the period would have been Rs 145 and Rs 17 respectively. The proforma amounts are not necessarily indicative of results that would have occurred if the acquisition had occurred on dates indicated or that may result in the future.

Results from this acquisition are grouped under RCM in the segmental reporting.

38 Acquisition of Magnet 360 LLC

On January 19, 2016, the Group acquired 100% of membership interest in Magnet 360 LLC, thereby obtaining control.

Magnet 360, LLC provides Sales force multi-cloud implementation strategies and consulting services. It assesses go-to-market goals of organizations and specializes in multi-cloud, marketing automation and community cloud solutions. The acquisition of Magnet will enable the Group to increase its foot print in sales force multi-cloud implementation space.

The acquisition was executed through unit purchase agreement to acquire 100% of the membership interest in Magnet

The fair value of purchase consideration of Rs 2,962 comprised upfront cash consideration of Rs 2,526 and contingent consideration of Rs 436. **The details are provided below:**

| Sl no | Nature of consideration | Amount (Rs) | Fair value (Rs) | Terms |
|-------|------------------------------|-------------|-----------------|---|
| | 1 Upfront cash consideration | 2,526 | 2,526 | |
| | 2 Contingent consideration | 566 | 436 | Payable in two installments for the year ending Dec 2016, and Dec 2017 determined based on achievement of certain financial targets |
| | Total | 3,092 | 2,962 | |

The fair value of the contingent consideration, recognized on the acquisition date is determined by discounting the estimated amount payable to the previous owners on achievement of certain financial targets applying the Discounted Cash Flow approach. The fair value of estimates are based on discount rate of 17.7% and probability adjusted revenue and earnings estimates

The fair value of net assets acquired on the acquisition date as a part of the transaction amounted to Rs 1,174. The excess of purchase consideration over the fair value of net assets acquired has been attributed towards goodwill.

| The purchase price has be | en allocated based on Management's estimates as follows: |
|---------------------------|--|
| | |

| Component | Acquiree's carrying amount | Fair value adjustments | Purchase price allocated |
|-------------------------------|-------------------------------|------------------------|-----------------------------|
| Property, plant and equipment | 39 | - | 39 |
| Net current assets | 158 | - | 158 |
| Intangible assets | - | 977 | 977 |
| Total | 197 | 977 | 1,174 |
| Goodwill | | | 1,788 |
| Total purchase price | | | 2,962 |

The intangible assets are amortized over a period of five to ten years as per management's estimate of its useful life, based on the life over which economic benefits are expected to be realized.

The goodwill amounting to Rs 1,788 comprises value of benefits of expected synergies, future revenue, future market developments, assembled workforce, etc.

The goodwill amounting to Rs 1,788 is expected to be deductible for tax purposes

From the date of acquisition, Magnet 360 has contributed revenues amounting to Rs 428 and profits / (loss) amounting to Rs (16) to the Group's results for the period ended March 31, 2016. If the acquisition had occurred on April 1, 2015, management estimates that consolidated revenues and profits for the year would have been Rs 1,647 and Rs 356 respectively. The proforma amounts are not necessarily indicative of results that would have occurred if the acquisition had occurred on that may result in the future.

Results from this acquisition are grouped under various operating segments as defined by the management.

39 The Company had filed an application before the Hon'ble High Court of Karnataka for a composite scheme of amalgamation ("the scheme") of Discoverture Solutions L.L.C. and Relational Solutions Inc., wholly owned subsidiaries of the Company with the Company, with an appointed date of April 1, 2015. Pursuant to the notification of certain sections of the Companies Act, 2013 on amalgamation, the application has been transferred to the National Company Law Tribunal (NCLT). Pending requisite approvals, no effect has been given for the scheme in the financial statements.

The Board of Directors at its meeting held on January 19, 2017 have approved the proposal to transfer the business and net assets of its wholly owned subsidiary, Bluefin Solutions Limited ("Bluefin") to Mindtree against the cancellation and extinguishment of Mindtree's investment in Bluefin. This is subject to the approval of Reserve Bank of India (RBI) and other statutory authorities, as may be required.

40 Segmental information

The CEO & MD of the company has been identified as the Chief Operating Decision Maker (CODM) as defined by Ind AS 108, Operating Segments. The CODM evaluates the Group's performance and allocates resources based on an analysis of various performance indicators by industry classes. Accordingly, segment information has been presented for industry classes.

The Group is structured into four reportable business segments – RCM, BFSI, TMS and TH. During the period, the Group has restructured its verticals and accordingly, as required by accounting standards, comparatives have been restated and presented in line with the current segments. The reportable business segments are in line with the segment wise information which is being presented to the CODM.

Each segment item reported is measured at the measure, it is reported to the chief operating decision maker for the purposes of making decisions about allocating resources to the segment and assessing its performance.

Geographic information is based on business sources from that geographic region and delivered from both on-site and off-shore. America comprises of United States of America and Canada, Europe includes continental Europe and United Kingdom; and the rest of the world comprises of all other geographies except those mentioned above and India.

Income and direct expenses in relation to segments are categorized based on items that are individually identifiable to that segment, while the remainder of costs are apportioned on an appropriate basis. Certain expenses are not specifically allocable to individual segments as the underlying services are used interchangeably. The management therefore believes that it is not practical to provide segment disclosures relating to such expenses and accordingly such expenses are separately disclosed as "unallocated" and directly charged against total income.

CODM does not review assets and liabilities at reportable segments level hence segment disclosure relating to total assets and liabilities has not been provided. Geographical information on revenue and industry revenue information is collated based on individual customers invoices or in relation to which the revenue is otherwise recognized.

Note:

Management believes that it is currently not practicable to provide disclosure of assets by geographical location, as meaningful segregation of the available information is onerous.

Please refer to Note No. 30 on Financial Instruments for information on revenue from major customers.

41. First- time adoption of Indian Accounting Standard (Ind AS)

The Group's interim consolidated financial statements for the quarter and nine months ended December 31, 2016 are prepared in accordance with Ind AS's notified under the Companies (Indian Accounting Standards) Rules, 2015.

The adoption of Ind AS was carried out in accordance with Ind AS 101, using April 1, 2015 as the transition date. Ind AS 101 requires that all Ind AS standards and interpretations that are effective for the interim Ind AS Consolidated Financial Statements for the quarter and nine months ended December 31, 2016, be applied consistently and retrospectively for all fiscal years presented.

All applicable Ind AS have been applied consistently and retrospectively wherever required. The resulting difference between the carrying amounts of the assets and liabilities in the consolidated financial statements under both Ind AS and Indian GAAP as of the Transition Date have been recognized directly in equity at the Transition Date.

In preparing these consolidated financial statements, the Group has availed itself of certain exemptions and exceptions in accordance with Ind AS 101 as explained below:

(a) Exceptions from full retrospective application:

A. Estimates exception: Upon an assessment of the estimates made under previous GAAP, the management is of the opinion that there was no need to revise such estimates under Ind AS, except where estimates were required by Ind AS's and not required by previous GAAP.

B. Government loans: In accordance with Ind AS 101, on application of Ind AS 20, "Accounting for Government Grants and Disclosure of Government Assistance", the Company has used its previous GAAP carrying amount at the date of transition to Ind ASs as the carrying amount in the opening Ind AS Balance Sheet

(b) Exemptions from retrospective application:

A. Share-based payment exemption: The Company has availed exemption available under Ind AS 101 on application of Ind AS 102, "Share Based Payment", to equity instruments that vested before the date of transition to Ind ASs.

B. Business combination exemption: The Group has applied the exemption as provided in Ind AS 101 from application of Ind AS 103, "Business Combinations" to business combinations made prior to April 1, 2014.

(c) Reconciliations:

The following reconciliations provide a quantification of the effect of significant differences arising from the transition from Indian GAAP to Ind AS in accordance with Ind AS 101:

- equity as at April 1, 2015;
- equity as at December 31, 2015;
- equity as at March 31, 2016;
- total comprehensive income for the quarter and nine-months ended December 31, 2015; and
- total comprehensive income for the year ended March 31, 2016; and
- explanation of material adjustments to cash flow statements.

Significant accounting policies and notes to the accounts

Notes:

1. Business combinations:

Under Ind AS, the acquiree's identifiable assets, liabilities and contingent liabilities that meet the condition for recognition are recognised at their fair values at the acquisition date. This has resulted in the recognition of intangible assets and consequent amortisation of such intangibles in the statement of profit and loss. Under previous GAAP, the assets and liabilities of the acquiree are recognised at their book values.

2. Fair valuation of investments:

a) Under Ind AS, financial assets and financial liabilities designated at fair value through profit and loss (FVTPL) are fair valued at each reporting date with changes in fair value recognized in the statement of profit and loss. Under previous GAAP, they are measured at lower of cost or net realisable value. Mutual fund investments have been classified as FVTPL. Consequently, increase in fair value of such investments in quoted mutual funds has resulted in a gain.

b) Under Ind AS, financial assets designated at fair value through other comprehensive income (FVTOCI) are fair valued at each reporting date with changes in fair value (net of deferred taxes) recognized directly in other comprehensive income. Under previous GAAP, they are measured at cost with provision for dimunition other than temporary. Investments in equity instruments have been classified as FVTOCI. Consequently, fair value of such equity instruments designated at FVTOCI has resulted in a gain in other comprehensive income.

3. Under Ind AS, liability for dividend is recognized in the period in which the obligation to pay is established. Under previous GAAP, a liability is recognized in the period to which the dividend relates, even though the dividend may be approved by the shareholders subsequent to the reporting date. Consequently, dividend payable under Ind AS is lower and retained earning is higher.

4. Under previous GAAP, actuarial gains and losses were recognised in the statement profit and loss. Under Ind AS, the actuarial gains and losses form part of remeasurement of the net defined benefit liability / asset which is recognised in other comprehensive income. Consequently, the tax effect of the same has also been recognised in other comprehensive income under Ind AS instead of statement of profit and loss.

5. Under Ind AS, the deferred consideration on sale of land is measured at fair value. Under previous GAAP, such consideration are carried at initial transaction value. The difference between initial transaction value and fair value on the date of sale is reduced from profit on sale of land and subsequent change in the fair value of such deferred consideration is recognised as notional interest income in the statement of profit and loss.

6. Under Ind AS, leases of land are classified as operating leases unless the title to the leasehold land is expected to be transferred to the Company at the end of the lease term. Lease rentals paid in advance and lease deposits are recognized as other assets. Under previous GAAP, the lease rentals paid in advance and lease deposits are recognized in property, plant and equipment. The lease rentals paid in advance are charged to the statement of profit and loss over the lease term.

Under Ind AS, financial instruments other than those designated at FVTPL and FVTOCI are measured at amortised cost. Under previous GAAP, they are recognised at cost. Security deposits are carried at amortised cost using effective interest method.

7. Under Ind AS, grant specific to property, plant and equipment should be treated as deferred income which is recognised in statement of profit and loss over the periods and in proportion to depreciation on related assets. Under previous GAAP, such non-monetary grant was deducted from the gross value of the asset.

(iii) Cash flow statement:

There were no significant reconciliation items between cash flows prepared under Indian GAAP and those prepared under Ind AS.
