

Paul Gottsegen
Chief Marketing and Strategy Officer

Since change seems to be the only constant in today's world, Digital transformation has become imperative for all businesses – large and small. Whether it's in automation, logistics, software, retail or banking — Digital disruption is omnipresent. The smart enterprises are learning to harness emerging technology such as Blockchain, beacons and automation. Check out this month's newsletter for further direction, in addition to an all-new approach to integrating 'run-the-business' operations.

SAP Analytics Cloud: A name changer or a game changer?

Demystifying 'Digital', the Mindtree way

"Digital" now represents all of the changes sweeping across the IT landscape. It refers to newer technologies with ultrafast deployment cycles that threaten to upend the older monolithic systems that have proliferated all over the world. Learn what Mindtree CEO Rostow Ravanan has to say about the market impacts of Digital.

Read more >>

Is SAP Analytics Cloud just another name change or is it truly a solution worthy of consideration? The answer: it's both. Yes, the name was changed, but there is also new potential to offer your end-users. Peter Humble, director, BI and HANA Centre of Excellence, for Bluefin, explains how to rapidly deliver business results without consuming huge amounts of resources in development and maintenance.

Discover the benefits of a Blockchain-powered agent collaboration

A sizeable portion of remittances move across global economies such as the U.S. and the U.K. to developing economies like India and China. Agent networks ensure last-mile connectivity for remittance service providers, but they suffer from a lack of financial incentives and poor networking. Discover how a Blockchain-based solution can enable better collaboration among agents, leading to increased engagement and improved incentives.
