# Russia eyes \$7-bn defence deals: Frigates and copters

AJAI SHUKLA  
New Delhi, 4 October

With American having displaced Russia over the preceding decade as India's largest supplier of weaponry, the balance could be restored significantly in the summit meeting between Prime Minister Narendra Modi and Russian President Vladimir Putin in New Delhi on Friday.

Possible announcements relate to the supply of five S-400 Triumf air defence units for the Indian Air Force (IAF) for some \$4.5 billion; four Krivak III-class frigates for the navy for about \$2 billion, and a \$1.5-billion contract to build 200 Kamov-226T light helicopters in Hindustan Aeronautics (HAL) with technology transferred from Russian Helicopters.

If all this is finalised, Russia would benefit from about \$8 billion worth of defence orders. This would be half of what America has won in a decade. Standing in the way of Indian purchases from Russia is an American law passed last year — "Countering America's Adversaries Through Sanctions Act" (CAATSA).

**TO RUSSIA WITH LOVE:** Prime Minister Narendra Modi with Russian President Vladimir Putin before their meeting in New Delhi on Thursday. Putin is in India on a two-day visit

Passed by the US Congress to force President Donald Trump's hand against Russia, CAATSA binds the US administration to impose sanctions against countries that engage in "significant transactions" with Russian, Iranian and North Korean defence and intelligence entities.

All three contracts in the pipeline with Russia — the S-400 system, frigates and, to a

lesser extent, helicopters — could potentially be considered "significant transactions".

However, after hectic Indian lobbying, Washington has created a path for its president to grant a waiver from CAATSA for close partners like India and Vietnam, which have traditionally been dependent on Russian weaponry, and cannot be reasonably expected to break that dependency suddenly.

It remains to be seen whether Trump will invoke a waiver for India. Defence Minister Nirmala Sitharaman indicated in August that there was a modus vivendi between New Delhi and Washington, stating: "Both the US secretary of defence and secretary of state have displayed understanding [of Indian interests]."

The S-400 Triumf (NATO designation: SA-21 Growler) is a versatile air defence system that can detect incoming enemy aircraft while they are 600 kilometres away and shoot them down as they approach within 400 kilometres.

An S-400 unit located near Delhi for protecting the capital would be able to shoot down Pakistani aircraft even before they cross the border to India, and Chinese aircraft while they were still in Tibetan or Nepalese air space. Similarly, an S-400 unit deployed to protect India's petroleum refineries and dock infrastructure around Haldia, in Gujarat, would be able to engage Pakistani fighters as soon as they took off from Karachi.

# LIC makes open offer to pick up 26% in IDBI Bank

At ₹61.73 per share, this would mean a total payout of ₹126 billion

PRESS TRUST OF INDIA  
New Delhi, 4 October

The Life Insurance Corporation of India (LIC) on Thursday made an open offer for acquiring 26 per cent of equity in IDBI Bank at a price of ₹61.73 per share, entailing total payout of over ₹126 billion.

Earlier in the day, the IDBI Bank board approved the proposal for issuance of preferential shares in favour of LIC with a view to increase the share of insurer in the bank up to 51 per cent.

LIC made a public announcement for the open offer to shareholders, including retailers, according to the Securities and Exchange Board of India's regulations with regard to substantial acquisition and takeover of shares in a company.

According to the open offer, LIC proposes to acquire more than 2.04 billion equity shares of ₹10 each, equivalent to 26 per cent equity of IDBI Bank.

The board of IDBI Bank approved the preferential allotment of equity shares to LIC aggregating up to 51 per cent of post-issue paid-up capital of the bank, IDBI Bank said in a regulatory filing.

At a price consideration of ₹61.73 per equity, assuming full acceptance under the offer for 2,041,512,929 shares (or 26 per cent), the total payable by the acquirer (LIC) will be ₹126 billion, IDBI said in its latest filing on behalf of LIC

**LIC proposes to acquire more than 2 billion equity shares**

PHOTO: DALIP KUMAR

The offer price will be paid in cash. "The board of directors of the target company (IDBI Bank) in their meeting held on October 4 have authorised the preferential allotment representing up to 51 per cent of the fully diluted voting share capital (preferential issue) in favour of the acquirer (LIC) along with the acquisition control," it said in the filing.

The government has already approved the proposal of LIC to increase the stake in IDBI Bank.

IDBI Bank board on Thursday also approved increasing authorised capital

of the bank from ₹80 billion to ₹150 billion. The meeting also cleared a proposal for re-classification of LIC as promoter of the bank post acquisition of 51 per cent stake in IDBI Bank, it said.

The board also approved alterations in Articles of Association of the bank. The Union Cabinet on August 1 cleared a proposal for purchase of a 51 per cent controlling stake in IDBI Bank by LIC. The bank, in which the government holds an 85.96 per cent stake, had posted a net loss of ₹24.1 billion in the June quarter of this fiscal year. It had gross non-performing asset (NPAs) of about ₹578 billion.

The board of Insurance Regulatory and Development Authority of India in June permitted LIC to increase its stake from 10.82 per cent to 51 per cent in IDBI Bank. According to regulations, an insurance company cannot own more than 15 per cent stake in any listed financial firm.

LIC has been looking to enter the banking space by acquiring a majority stake in IDBI Bank as the deal is expected to provide business synergies despite the lender's stressed balance sheet.

With culmination of the deal, LIC will get about 2,000 branches by which it can sell its products, while the bank would get massive funds of LIC. The bank would also get accounts of about 220 million policy holders and subsequent flow of fund.

# Services PMI eases to a four-month low of 50.9

**SUBHAYAN CHAKRABORTY**  
New Delhi, 4 October

Low demand, little order growth and intensifying price pressure brought down services growth in September to its slowest level in four months, according to the widely tracked Nikkei India Services Purchasing Managers Index (PMI).

The Services PMI for September fell to 50.9, down from 51.5 in August. The 50-point mark separates expansion from contraction. Despite expanding for the fourth straight month, the services sector saw broad stagnation in both new and existing businesses in September.

Companies reported that market conditions were underwhelming amid a lack of demand at a time of generally higher prices.

Underlying growth in activity and new work remained strongest in the information and communication category. In contrast, the finance and insurance and business services categories saw gains. Volatility in the sector has been mostly attributed to changing prices. Input prices rose the highest since November amid reports of higher fuel costs, according to the report by IHS Markit, compiler of the PMI survey.

The rupee has been the worst performer among the Asian currencies, reducing in value by more than 14 per cent since the beginning of the year against the dollar.

"Rising price pressures were cited as a factor weighing on market activity, with reports from panellists of rising fuel and import prices, in turn mainly driven by the stronger US dollar," Paul Smith, economics director at IHS Markit and author of the report, said.

# Direct tax mop-up emerges as bright spot for govt

**ABHISHEK WAGHMARE**  
New Delhi, 4 October

Robust direct tax collection has come to the rescue of the government, after below-target goods and services tax (GST) collections and a ₹105-billion hit in excise revenue after the duty cut.

Direct tax collection, net of refunds, stood at ₹4.44 trillion in the first six months of the current financial year (2018-19 or FY19), 14 per cent higher than the corresponding period of the previous year. This is in line with the Budget Estimates of 14.4 per cent growth in FY19.

These collections in six months form 38.6 per cent of the annual budget estimate of ₹11.5 trillion. This is in line with the trend of six-monthly collections in the last two years. So, the issue is if the pace does not increase, the government may not be able to make up for expected shortfall in the GST collections from direct taxes.

Tax collections, before refunds, rose 16.7 per cent year-on-year to ₹5.47 trillion in the first six months of 2018-19. Refunds were at the record level of over ₹1 trillion in the April-September period.

Among the constituents of direct taxes, collection of advance corporate income tax showed an impressive growth of 16.4 per cent this year, riding over an 8 per cent growth in the last two years. Experts have welcomed the data, pointing out that the worries to government finances are external.

Pranav Sayta, partner and transaction tax leader, EY India, said: "While the overall growth in direct tax collections for H1 FY19 is encouraging, what is particularly inspiring is the steep increase in the growth rate in Corporate Advance Tax collections compared to last year."
