

Murex on the Cloud

Murex on the cloud helps banking and financial institutions address their growing demands for Agile bandwidth, architecture, and global connectivity. It enables organizations leverage the flexibility and economies scale of the cloud to drive growth and innovation. This results in enhanced ability to tap into new digital opportunities and better manage risks.

As a preferred Murex Alliance Partner, Mindtree offers solutions to support trading, risk management and processing solutions for banks, capital markets and financial institutions (FIs) for both on premises as well as in cloud infrastructure - Microsoft Azure and Amazon Web Services (AWS). We accompany Murex to support its clients by analyzing existing cloud strategies and their impact. We also migrate existing Murex platform to the cloud by auditing their current hardware uses, providing IT security checks, Disaster Recovery (DR) and backup strategies.

Mindtree provides LIFT and SHIFT, Hybrid and R&D solutions to your Murex cloud journey with below services.

Murex Cloud Strategy Services

- Cloud readiness assessment
- Cloud roadmap and strategy
- Cloud architecture audit
- Cloud security roadmap
- Workload mapping and TCO prediction

Murex Cloud Management Services

- Risk reports and remediation plans
