## Editor's pick

### **Mindtree partners with Mölnlycke for enterprise application and cloud transformation journey**

Mindtree has partnered with Mölnlycke to provide SAP application development and maintenance along with cloud operations. Mindtree will help migrate Mölnlycke's on-premise SAP to Microsoft Azure and accelerate towards a platform-led DevSecOps operating model, ensuring faster response to business changes, and reliable IT support.

## Building digital resiliency for the next

# normal

Mindtree, along with leading management consulting firm, Everest Group, organized the **Possibilities Forum—Ensuring Post-Pandemic Readiness**, to discuss digital journeys that would effectively support post-pandemic business models. The forum brought together CXOs across industries to discuss current trends: achieving organization agility, best practices for digital transformations, creating added value post-pandemic, and determining the best path to recovery now.

## Mindtree musings

### Handling COVID-19 with a smile on our faces!

Mindtree is truly a digital company that leverages new technologies internally *while also* implementing them for clients. Hear how we looked beyond our established ways of doing things during the start of COVID-19 and changed our business continuity plan to mitigate potential losses on every level—from clients, to employees, to stakeholders, and beyond. See how we've reshaped and rebuilt our enterprise resilience to last beyond this pandemic.
