The evolution of NoOps

The core objective of most IT strategies should be focused on maximizing the value chain. However, with the introduction of new technologies and capabilities, the value chain itself has adapted. Mindtree believes that NoOps has taken on a life of its own that is not only complementary to DevOps, but also necessary to accelerate the entire IT value chain.

Facilitating smooth S/4 conversion and SAP workload migration to Azure for a tech multinational

Read how we recently helped a multinational information technology and outsourcing company deliver digital transformation and technology services for their over 2,000 global clients, enabling them to outperform the competition. "In today's challenging, unprecedented market conditions, organizations' short- and long-term goals are defined by their ability to respond proactively. With SAP S/4HANA as the digital core, Mindtree can adapt to evolving market conditions in real-time, improve collaboration, and drive innovation."
