All applicable Ind AS have been applied consistently and retrospectively wherever required. The following reconciliations provide a quantification of the effect of significant differences arising from the transition from Indian GAAP to Ind AS in accordance with Ind AS 101:

Total comprehensive income under Ind AS		5,783	1,407	2,733

(III) Explanations for reconciliation of equity and profit

I. Business combination:

Under Ind AS, contingent consideration payable on business combination is measured at fair value while under previous GAAP it is recognised at cost.

II. Fair valuation of investments:

a) Under Ind AS, financial assets and financial liabilities designated at fair value through profit and loss (FVTPL) are fair valued at each reporting date with changes in fair value recognized in the statement of profit and loss. Under previous GAAP, they are measured at lower of cost or net realisable value. Mutual fund investments have been classified as FVTPL. Consequently, increase in fair value of such investments in quoted mutual funds has resulted in a gain.

b) Under Ind AS, financial assets designated at fair value through other comprehensive income (FVTOCI) are fair valued at each reporting date with changes in fair value (net of deferred taxes) recognized directly in other comprehensive income. Under previous GAAP, they are measured at cost with provision for diminution other than temporary. Investments in equity instruments have been classified as FVTOCI. Consequently, fair value of such equity instruments designated at FVTOCI has resulted in a gain in other comprehensive income.

III. Under Ind AS, liability for dividend is recognized in the period in which the obligation to pay is established. Under previous GAAP, a liability is recognized in the period to which the dividend relates, even though the dividend may be approved by the shareholders subsequent to the reporting date. Consequently, dividend payable under Ind AS is lower and retained earnings is higher.

IV. Under previous GAAP, actuarial gains and losses on defined benefit plans were recognized in the statement of profit and loss. Under Ind AS, the actuarial gains and losses form part of remeasurement of the net defined benefit liability/asset which is recognized in other comprehensive income. Consequently, the tax effect of the same has also been recognized in other comprehensive income under Ind AS instead of the statement of profit and loss.

V. Under Ind AS, the deferred consideration on sale of land is measured at fair value. Under previous GAAP, such consideration is carried at initial transaction value. The difference between initial transaction value and fair value on the date of sale is reduced from profit on sale of land and subsequent change in the fair value of such deferred consideration is recognized as notional interest income in the statement of profit and loss.

VI. Under Ind AS, leases of land are classified as operating leases unless the title to the leasehold land is expected to be transferred to the Company at the end of the lease term. Lease rentals paid in advance and lease deposits are recognized as other assets. Under previous GAAP, the lease rentals paid in advance and lease deposits are recognized in property, plant and equipment. The lease rentals paid in advance are charged to the statement of profit and loss over the lease term.

Under Ind AS, financial instruments other than those designated at FVTPL and FVTOCI are measured at amortised cost. Under previous GAAP, they are recognized at cost. Security deposits are carried at amortised cost using effective interest method.

6 EPS for the quarter and six months ended September 30, 2016 is not annualized. EPS for comparable period is adjusted for bonus issue.

7 The statement of financial results have been audited by the Company's auditors. The Company's auditors have issued an unmodified audit opinion on the financial results. The audit report has been filed with the stock exchanges and is also available on the Company's website.

The adoption of Ind AS was carried out in accordance with Ind AS 101, using April 1, 2015 as the transition date. Ind AS 101 requires that all Ind AS standards and interpretations that are effective for the interim Ind AS consolidated financial statements for the quarter and six months ended September 30, 2016, be applied consistently and retrospectively for all fiscal years presented. All applicable Ind AS have been applied consistently and retrospectively wherever required. Explanations for reconciliation of equity and profit

i. Business combination: Under Ind AS, the acquiree's identifiable assets, liabilities and contingent liabilities that meet the condition for recognition are recognised at their fair values at the acquisition date. This has resulted in the recognition of intangible assets and consequent amortisation of such intangibles in the statement of profit and loss. Under previous GAAP, the assets and liabilities of the acquiree are recognised at their book values.

ii. Fair valuation of investments:

a) Under Ind AS, financial assets and financial liabilities designated at fair value through profit and loss (FVTPL) are fair valued at each reporting date with changes in fair value recognized in the statement of profit and loss. Under previous GAAP, they are measured at lower of cost or net realisable value. Mutual fund investments have been classified as FVTPL. Consequently, increase in fair value of such investments in quoted mutual funds has resulted in a gain.

b) Under Ind AS, financial assets designated at fair value through other comprehensive income (FVTOCI) are fair valued at each reporting date with changes in fair value (net of deferred taxes) recognized directly in other comprehensive income. Under previous GAAP, they are measured at cost with provision for diminution other than temporary. Investments in equity instruments have been classified as FVTOCI. Consequently, fair value of such equity instruments designated at FVTOCI has resulted in a gain in other comprehensive income.

iii. Under Ind AS, liability for dividend is recognized in the period in which the obligation to pay is established. Under previous GAAP, a liability is recognized in the period to which the dividend relates, even though the dividend may be approved by the shareholders subsequent to the reporting date. Consequently, dividend payable under Ind AS is lower and retained earning is higher.

iv. Under previous GAAP, actuarial gains and losses on defined benefit plans were recognized in the statement of profit and loss. Under Ind AS, the actuarial gains and losses form part of remeasurement of the net defined benefit liability/asset which is recognized in other comprehensive income. Consequently, the tax effect of the same has also been recognized in other comprehensive income under Ind AS instead of statement of profit and loss.

v. Under Ind AS, the deferred consideration on sale of land is measured at fair value. Under previous GAAP, such consideration is carried at initial transaction value. The difference between initial transaction value and fair value on the date of sale is reduced from profit on sale of land and subsequent change in the fair value of such deferred consideration is recognized as notional interest income in the statement of profit and loss.

vi. Under Ind AS, leases of land are classified as operating leases unless the title to the leasehold land is expected to be transferred to the Company at the end of the lease term. Lease rentals paid in advance and lease deposits are recognized as other assets. Under previous GAAP, the lease rentals paid in advance and lease deposits are recognized in property, plant and equipment. The lease rentals paid in advance are charged to the statement of profit and loss over the lease term.

Under Ind AS, financial instruments other than those designated at FVTPL and FVTOCI are measured at amortised cost. Under previous GAAP, they are recognized at cost. Security deposits are carried at amortised cost using effective interest method.

Explanations for reconciliation of equity and profit

i. Business combination: Under Ind AS, the acquiree's identifiable assets, liabilities and contingent liabilities that meet the condition for recognition are recognised at their fair values at the acquisition date. This has resulted in the recognition of intangible assets and consequent amortisation of such intangibles in the statement of profit and loss. Under previous GAAP, the assets and liabilities of the acquiree are recognised at their book values.

ii. Fair valuation of investments:

a) Under Ind AS, financial assets and financial liabilities designated at fair value through profit and loss (FVTPL) are fair valued at each reporting date with changes in fair value recognized in the statement of profit and loss. Under previous GAAP, they are measured at lower of cost or net realisable value. Mutual fund investments have been classified as FVTPL. Consequently, increase in fair value of such investments in quoted mutual funds has resulted in a gain.

b) Under Ind AS, financial assets designated at fair value through other comprehensive income (FVTOCI) are fair valued at each reporting date with changes in fair value (net of deferred taxes) recognized directly in other comprehensive income. Under previous GAAP, they are measured at cost with provision for diminution other than temporary. Investments in equity instruments have been classified as FVTOCI. Consequently, fair value of such equity instruments designated at FVTOCI has resulted in a gain in other comprehensive income.

iii. Under Ind AS, liability for dividend is recognized in the period in which the obligation to pay is established. Under previous GAAP, a liability is recognized in the period to which the dividend relates, even though the dividend may be approved by the shareholders subsequent to the reporting date. Consequently, dividend payable under Ind AS is lower and retained earning is higher.

iv. Under previous GAAP, actuarial gains and losses on defined benefit plans were recognised in the statement of profit and loss. Under Ind AS, the actuarial gains and losses form part of remeasurement of the net defined benefit liability /asset which is recognised in other comprehensive income. Consequently, the tax effect of the same has also been recognised in other comprehensive income under Ind AS instead of statement of profit and loss.

v. Under Ind AS, the deferred consideration on sale of land is measured at fair value. Under previous GAAP, such consideration is carried at initial transaction value. The difference between initial transaction value and fair value on the date of sale is reduced from profit on sale of land and subsequent change in the fair value of such deferred consideration is recognised as notional interest income in the statement of profit and loss.

vi. Under Ind AS, leases of land are classified as operating leases unless the title to the leasehold land is expected to be transferred to the Company at the end of the lease term. Lease rentals paid in advance and lease deposits are recognized as other assets. Under previous GAAP, the lease rentals paid in advance and lease deposits are recognized in property, plant and equipment. The lease rentals paid in advance are charged to the statement of profit and loss over the lease term.

Under Ind AS, financial instruments other than those designated at FVTPL and FVTOCI are measured at amortised cost. Under previous GAAP, they are recognised at cost. Security deposits are carried at amortised cost using effective interest method.
